

## Flex Dispenser

### Description

With its flexible design, the Flex by F-MATIC is the perfect dispenser for all of your air freshening needs.

- The Flex Dispenser works with **gel, wick, and metered spray refills**
- **Interchangeable heads\*** easily convert the flex dispenser between fan and metered spray modes
- Adjustable gel tray allows for the **regulation of fragrance strength** by moving the gel up or down.
- **Operates for over 30 days** with one heavy duty D-cell battery in fan mode and for **up to 90 days** with 2 AA batteries in spray mode.
- Designed with swing-open cover and bottom battery placement for **simple product change-out**
- Durable casing and optional lock **discourages vandalism**
- **Adjustable Spray Interval**, timing between sprays can be adjusted to 7, 14, and 28 minutes for customized odor control
- **Universal-fit metered spray collar** accepts most can types

### Environmental Profile

The Flex's durable design means it will last longer and create less waste. The dispenser housing is made with #5 recyclable plastic and is packaged using recycled materials.

### Markets

Attractive new design and ability to use three distinct odor control and air enhancement method, makes it the perfect dispenser for use in any location and preference.
