

KN95 MASK

PRODUCT SALES SHEET
FACILITY CARE

DESCRIPTION

KN95 is an industry-standard and means that the mask provides the intended effectiveness of filtering >95% of particles with a mass median diameter of 0.3 micrometers. We back our claim with accurate testing of our products and have a GB2626-2006 performance standard.

KN95 MASK

Our mask is designed with 3 layers of non-woven fabric by a process known as melt blowing and can protect you from PM10, PM2.5, and even smaller particles like pollen, bacteria and germs, smog, auto exhaust, smoke odor and fragrance. Easy to breathe through, soft and odorless.

PRODUCT SPECS
