

Description

The unique chemistries of Daily Bowl Cleaner safely remove unpleasant stains. The preferred choice for routine maintenance or daily cleaning. This 100% biodegradable product leaves restrooms smelling fresh and clean! Just one daily, pre-measured, concentrated, water-soluble packet will dissolve quickly in water without a dispenser and produce a foam for easy cleaning.

Hydro Paks are free of alcohols, ammonia, VOC's, or solvents and they reduce shipping costs while protecting the environment. Contains 80 toilet bowl cleaning pods.

Applications

Simply drop one water soluble packet into toilet bowl. The packet will foam immediately, dispensing soil-removing chemistries. Allow solution to foam for a few minutes before cleaning. When surface is covered with foam, swab bowl above and below the waterline as well as under the rim. Allow solution to remain in bowl as long as possible before flushing. Daily Bowl Cleaner will leave restroom smelling fresh and clean.

CAUTION: Do not handle packets with wet hands. Keep container closed when not in use. Humidity and water will damage the packet.

This product is not intended for use on food contact surfaces. Avoid contact with open wounds, sores, and eyes. If contact occurs, rinse affected area. If contact with eyes is made, flush thoroughly. Do not consume. If product is consumed, drink copious amounts of water and contact a physician if need be.
