

Description

The Non Para Block Screen is an anti-splash urinal cleaner and deodorizer that protects urinal drains and helps prevent bad odors. With every flush, it cleans and descales urinals.

- Contains enzymes that act with water contact to release a pleasant fragrance and counter all other odors.
- Anti-splash construction and flexible plastic for a secure fit.
- Can be private-labeled to your company brand, with low additional costs and MOQ.
- Releases consistent and powerful fragrance for a full 30 days.
- Services up to 2,000 flushes.
- Low cost urinal screen option.

Activation

Secure the Non Para Block Screen within the center of the urinal. Once the Block Screen is installed, every time the urinal is flushed, the enzymes will automatically work to descale drains, deodorize unpleasant odors, and leave behind a clean, fresh scent. Dispose after 30 days.

Environmental Profile

Non-toxic
Biodegradable
