## urinaze™ warmth activating technology

Unleashes a burst of scent upon every use to neutralize urine odor.

## product features

F-MATIC **AirFin®** Urinal Screens obliterate odors while leaving behind a clean, fresh scent. Because **AirFin® is 46% heavier** than the average screen on the market, we are able to offer more fragrance than leading brands. The patent pending **AirFin®** is designed using sloped fins which guides the urine directly into the bottom of the urinal, **reducing splash-back by 99%**! Its round shape conforms to any urinal floor, preventing costly plumbing bills by intercepting debris, such as gum or cigarette butts. Screens are 100% recyclable and VOC compliant in all 50 states.

## promote your business

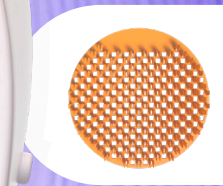

**AirFin®**, as well as many of our other products are available for private branding. Let your brand be known and seen! Since our products are made in house, in the USA, we are able to offer low costs and manageable minimums.

All products made in the USA, using our premium fragrance, creating a cohesive fragrance experience.

## Coordinating Fragrance

## TMM® Total Malodor Management®

Currently, AirFin® are made with the powerful TMM® odor neutralizer, ensuring that odors are not masked, but eliminated. **KILLS ODORS AT THE SOURCE!**
