# economical measured spray

## product features

The combination of a dual odor-counteractant system and an ultra-dry, ultra-fine mist of premium fragrance give the F-MATIC Metered Spray Air Fresheners the upper hand on tough odors. Free of glycol ethers, the ultra-dry formula means no drips on walls, no pools on floors, and fewer slips and falls in public spaces.

We outsmart the competition by offering more sprays per can (3,400) vs. 3,000), making F-MATIC Metered Sprays a longer-lasting, more economical product. What's more, our metered spray air fresheners fit in most competitive commercial air freshener spray dispensers for an easy switch to our superior product.
