

breza fragrance diffuser

Our **Breza Fragrance Systems** utilize cutting-edge cold air diffusion technology, shared across all **F-Matic® Venti** diffusers, to create an ultra-quiet, high-velocity experience. By leveraging high air pressure, these systems transform fragrance oils into a fine, dry mist of particles without the need for heat. This innovative method ensures optimal fragrance dispersion while prioritizing safety, distinguishing our diffusers as pioneers in air care technology.

Each system accommodates one 16 oz. bottle of our premium **Venti™** fragrance oil and offers straightforward settings for up to four desired fragrance scenes. They can be used freestanding or easily installed in any HVAC system, or via two ports, to disperse fragrance efficiently and effectively.

large space fragrance systems

Create a welcoming and memorable environment in your large space. This unit is ideal for medium-large offices, restaurants or bars, casinos, hotels, and department stores.

fragrance marketing

Brand recognition doesn't end with your logo. A pleasant fragrance will increase brand recognition and repeated business with the emotional response of scent. Also we can create your own custom scent to incorporate as part of your brand.

aesthetics

We analyze the style, ambiance, and color palette of your brand to gain insight into how you're currently presenting yourself to your customers.

no residue

With our cold-air diffusion technology, you won't find any oily residue on surfaces or within your HVAC system. The ultra-fine particles are effortlessly distributed for a clean and effective fragrance experience.

décor

Your décor speaks volumes about the impression you wish to convey. Our fragrance will not only harmonize with your environment but also elevate it!

increase productivity

Specific fragrances have the potential to enhance creativity and concentration, while also uplifting the mood in your office environment. We specialize in crafting custom fragrances tailored to your specific objectives.

breza mini

The **Breza Mini** is a freestanding-only fragrance diffuser that covers up to 6,000 square feet for over 500 hours using a single 16 oz. fragrance bottle.

White **AM02W-M** | Black **AM02B-M**

brand purpose

We integrate aspects of your brand's mission and values into your fragrance, ensuring that it resonates with your brand's purpose. Our fragrance will instinctively fulfill your brand promise, forging a deeper connection with your audience.

easy installation

The **Breza** unit offers flexibility—it can be used either freestanding or easily installed in your HVAC system in just minutes. All you need is a drill and a screwdriver to set it up swiftly and hassle-free!
