

OmniGuard™

OmniGuard™ is a continuous urinal cleaner that works with every flush to help reduce uric scale buildup, eliminate odors at the source, and keep drains cleaner. Designed for universal installation, OmniGuard™ provides up to 30 days of continuous treatment with minimal maintenance.

Every flush
continuously treats
drains & odor control

30-day performance
clears years of uric
scale buildup and
maintains clean pipes

Simple installation
no tools

Universal fit
fits most urinals

See what's building up in drains that aren't protected:

These are real drains without a continuous treatment program. What starts as a faint odor is uric scale and organic buildup narrowing the pipe. By the one-year mark, it's not just a smell problem, it's a plumbing problem.

Case Dimensions	12.25" × 11.25" × 11.00"	12.50" × 12.00" × 11.50"	12.50" × 12.00" × 11.50"	12.50" × 11.50" × 11.00"

Quick & Easy Installation

Step 1

Install the OmniGuard™

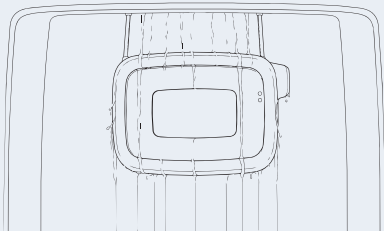

Place it inside the urinal with the arrow positioned straight up, ensuring it is securely held by the two water spouts along the top inner rim of the urinal. A pair of disposable gloves is included for optional use during installation.

Step 2

Check Water Flow Placement

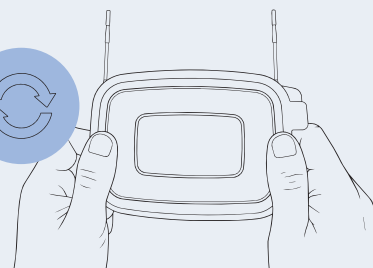

Make sure the unit is positioned to allow proper water flow behind it for optimal performance.

Step 3

Replace Monthly

Replace the OmniGuard refill every 30 days for optimal cleaning and deodorizing performance.
